Michigan Sportsmen Against Hunger is a 501(C3) organization whose mission is to create connections between hunters, wild game processors and charities to supply nutritious venison, at no cost, to help support Michigan communities in need.

MSAH receives no funding from donations that may be made during any Michigan outdoor license purchase and is totally dependent on tax deductible direct donations from individuals and organizations.

Contributors are assured that all funds received will be used to reimburse deer processors as well as promote the program, participating processor businesses and donors. A small amount (<5%) may be used for administrative costs such as printing, postage, website hosting, phone, etc. MSAH members do not receive compensation. Contributors at the Sponsor level will be invited to suggest known quality deer processors in their community that can be contacted about becoming processors for MSAH.
